

Providing Breakfast and Lunch for our Students

Provo City School District's Child Nutrition Program is committed to providing our students and school communities with nutritious and great-tasting meals. To that end, the Child Nutrition Program will resume breakfast and lunch meal service on the first day of school as follows:

Breakfast

A grab-n-go breakfast will be provided in the cafeteria in all elementary and secondary schools following proper social distancing guidelines. Please check your school's website under school information for specific breakfast serving times.

Lunch for Elementary In-School Learning

Lunch meal service options will be consistent across all elementary schools for in-school learning. However, each school is unique and school administrators will plan their lunch meal service accordingly with regards to logistics and proper social distancing guidelines. For the fall school opening, lunch meal service at the elementary level will include a grab-n-go lunch with:

- Students eating in the cafeteria
- Students eating outside while the weather permits
- Students eating in their classrooms

Lunch for Secondary In-School Learning

For in-person learning at the secondary school level, lunch will be offered for students in multiple serving areas as a grab-n-go option.

Breakfast and Lunch for Home Study Learning

Students participating in both the Home Study option and enrolled in one of our 18 schools will have the option to pick up a daily grab-n-go meal sack. Grab-n-go meal sacks will include lunch for the current day (and breakfast for the next day to eat at home and promote social distancing.) Students may decline the next day breakfast if preferred and choose to eat breakfast in school. Students enrolled in the extended Home Study option may order and pick up meals following the steps listed below. Until the Federal Government grants a waiver, students enrolled in e-School are not eligible for school meal service.

- Parents/guardians must pre-order meals by emailing the Kitchen Manager at each of their student's home schools no later than 9:00 a.m. on day of pick up. If preferred, parents may choose to email only once per week, and then the email must include the dates and which meals are needed.
- The students' full name and school I.D. number are required in your email request. Siblings attending the same school may be listed in one email request. However, each student listed will require their full name and school I.D. number.
- Meals will be charged according to student's meal eligibility, i.e., free, reduced or paid.
- The parent or guardian, or secondary school student may pick up pre-ordered meals daily from their home school's designated pick up location between 10:30 to 11:00 a.m.

In-School Student Breakfast and Lunch Schedule for Daily Meal Order and Pick Up

Monday In-School A	Tuesday In-School B	Wednesday In-School A	Thursday In-School B	Friday Home Study A

As a reminder, a new free and reduced meal application must be filled out annually and submitted to the Child Nutrition office by September 30th to avoid any disruption of current meal benefits.

We recommend families apply for school meal benefits online. The process is quick, easy and FREE, and we'll be able to review your application much faster than the traditional paper method. This method also facilitates a socially distanced, contact free application process for our families! Online lunch applications are currently accepted for the new school year via www.schoolunchapp.com. Links are also available on district and school websites, and following online student registration steps. Please email grantb@provo.edu to request a paper application if preferred.
