HOW TO SELECT BOOKS

Scan this QR Code with a smartphone to go to portal.kidsreadnow.org.

1. With your students:

Help each student select their Wish List books according to their reading ability and interests.

2. After they have chosen their books:

Visit portal.kidsreadnow.org and have each student enter the provided class code and select their name. They will then be able to lock in their book choices! Benefits of online selection include seeing a couple pages of each book as well as the activity questions. You can also filter for reading level and genre to display only books that are of interest/appropriate for that particular student.

3. After the student's books are selected online, parents should review and confirm their contact information online at portal.kidsreadnow.org. **This step is critical for proper delivery of books to kids' homes.**
